QUICK GUIDE

CAMELOT WHEEL MOVES

What it is, how to spot it and what to do with it.

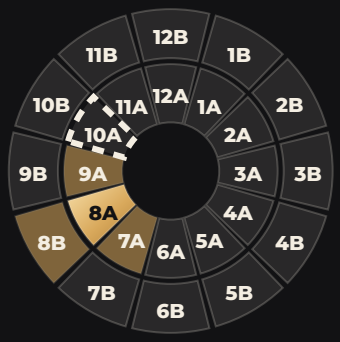

WHAT IT IS

The Camelot wheel gives every musical key a code from 1A to 12B. Keys that sit next to each other on the wheel sound good together, so you can plan transitions by reading the codes.

WHAT YOU'LL NOTICE

Smooth and musical. Melodies sit together instead of fighting.

Move +2 over drums only.

24 KEYS, ONE CODE EACH

Numbers 1 to 12, with A for minor keys and B for major keys.
