QUICK GUIDE

READ THE ROOM

What it is, how to spot it and what to do with it.

WHAT IT IS

Reading the room means watching how the crowd reacts and adjusting your selection to match. It is a skill you build by looking up from the gear.

WHAT YOU'LL NOTICE

Connected. The set responds to the people in it.

HEAD DOWN VS EYES UP

01

TEST, THEN BUILD

Try a few styles early and build on what gets a response.

02

TRY NEW IDEAS LATE IN A GOOD TRACK

A miss costs a minute, not the whole floor.

03

HANDLE REQUESTS CALMLY

Keep a list. Say: Love that one, I'll find a spot for it later.

DO THIS TONIGHT

Watch a 20-minute set and write down the floor's mood and what changed it.

- [ ] Look up every time you start a transition.
- [ ] Note what the floor does in the next minute.
- [ ] Keep a request list and play it at a natural point.

PRACTICE & CHECK

READ THE ROOM: YOUR TURN

WHERE YOU'LL MEET IT AS A DJ

- Testing styles early in a set and building on the response.
- Trying a new direction late in a track that is already working.
- Handling requests politely without losing your plan.

QUICK CHECK

1. Where should your eyes be?

2. When is a good time to try something new?

3. What do you say to a request you can't play yet?

Answer key: 1) On the floor, not on the screen. 2) Late in a track that is already working. 3) Love that one, I'll find a spot for it later.

REMEMBER

The floor tells you. Look up and listen.
